THE COWAN SCHOOL PHILOSOPHY

Our policy should be to take the child as he is when he comes to us, and develop him as much as possible toward his maximum potential. This should be done regardless of race, creed, or economic status of the family. Every child should have school opportunities suited to his needs and abilities. A staff of highly competent and well-prepared teachers, interested in understanding and serving youth, should be provided throughout the educational program.

Our teachers should be teachers of children also, instead of teachers of subject matter only. No subject should have a place in the curriculum of the school unless it can contribute to the general education of the boys and girls.

Teaching should be done in such a way as to make a difference in the lives of our boys and girls, a difference in their thinking, their acting, their attitudes, and in their appreciations. The teachers and the students should work together instead of separately. Emphasis should be placed upon the adaptation of the school to all of its individuals, rather than the individual to the school. We should strive to develop our boys and girls into human beings who are personally and socially adjusted, to assist them in acquiring the skills of democratic participation.

Rosella I. Lamb

Our goal should be to develop a democratic attitude, a lack of snobbery. We should give to our boys and girls these basic skills, as a minimum; writing English, handling mathematics, in so far as arithmetic and elementary algebra are concerned, and the ability to read with concentration, and some degree of understanding, as well as the ability to speak and to listen.

We should stimulate the interests of the gifted boy or girl to do his best throughout his entire school life. We should get him to relate the formal study and book learning to the life problems of the day. We should teach him to settle down and do a good intelligent thinking job.

We should do our best to see to it that the children in our care are not maladjusted, that they have a chance to develop sound mental attitudes and controls.

All youth of both sexes need specific knowledge for marriage, for home management, and for bringing up children. They need instruction in the planning and buying of food, clothing, housing and household appliances. They need to learn the financial management of such problems as health, education, recreation, and the proper use of credit. Every course should contribute to the youth's civic education. Students should learn to get along with fellow workers, to accept responsibility, and to know the problems of labor and management.

Schools should provide experiences and opportunities for the students to develop the strength they will need in their roles as homemakers, citizens, workers, and consumers. We have made every attempt to do these things at Cowan this year.

EXECUTIVE STAFF 1966 SACHEM

To record faithfully the story of a year, to preserve memories, to show the many faces of Cowan High, the competent and efficient Sachem staff works long hours to produce a splendid 1966 Sachem.

Through the direction of Mrs. Lucille Shesler, students sought to improve CHS's yearbook with sharp photos, clever captions, interesting and varied layouts, informative copy and eye-catching ads.

From the beginning--summer sales in July--to the end--the staff of the Sachem worked diligently and tirelessly on their part of the 1966 Sachem. The continued support of loyal advertisers, supplemented by the interest of new business boosted ad sales well over the top, enabling us to add extra pages to YOUR yearbook.

I would like to thank each member of the Sachem staff for the wonderful job they have done, but to Mrs. Shesler, the person mainly responsible for the yearbook, I give my deepest and most sincere "thank you" for all the time and effort she has given to help produce the 1966 Sachem.

Seated left to right: Nancy Kern, Production Editor; Cathy Thomas, Assistant Editor; Brenda Barnett, Editor Wayne Mock, Chief Photographer; Standing: Connie Storck, Business Editor; Judy Konwerski, Advertising Editor; Tom Barefoot, Sales Editor; David Hopper, Copy Editor; John Bird, Art Editor; Carolyn Karres, Assistant Production Editor.

A THANK YOU

We gratefully acknowledge our debt to many friends who aided us in preparation of the '66 SACHEM.

Mr. Richard ("Dick") Rollins, our representative from Taylor Publishing Company for his patience, assistance, understanding and cooperation this year...

Mr. Jim Reid and Ron Plum of Reid's Studio, and our own Staff Photographer, Wayne Mock; for the fine photography.

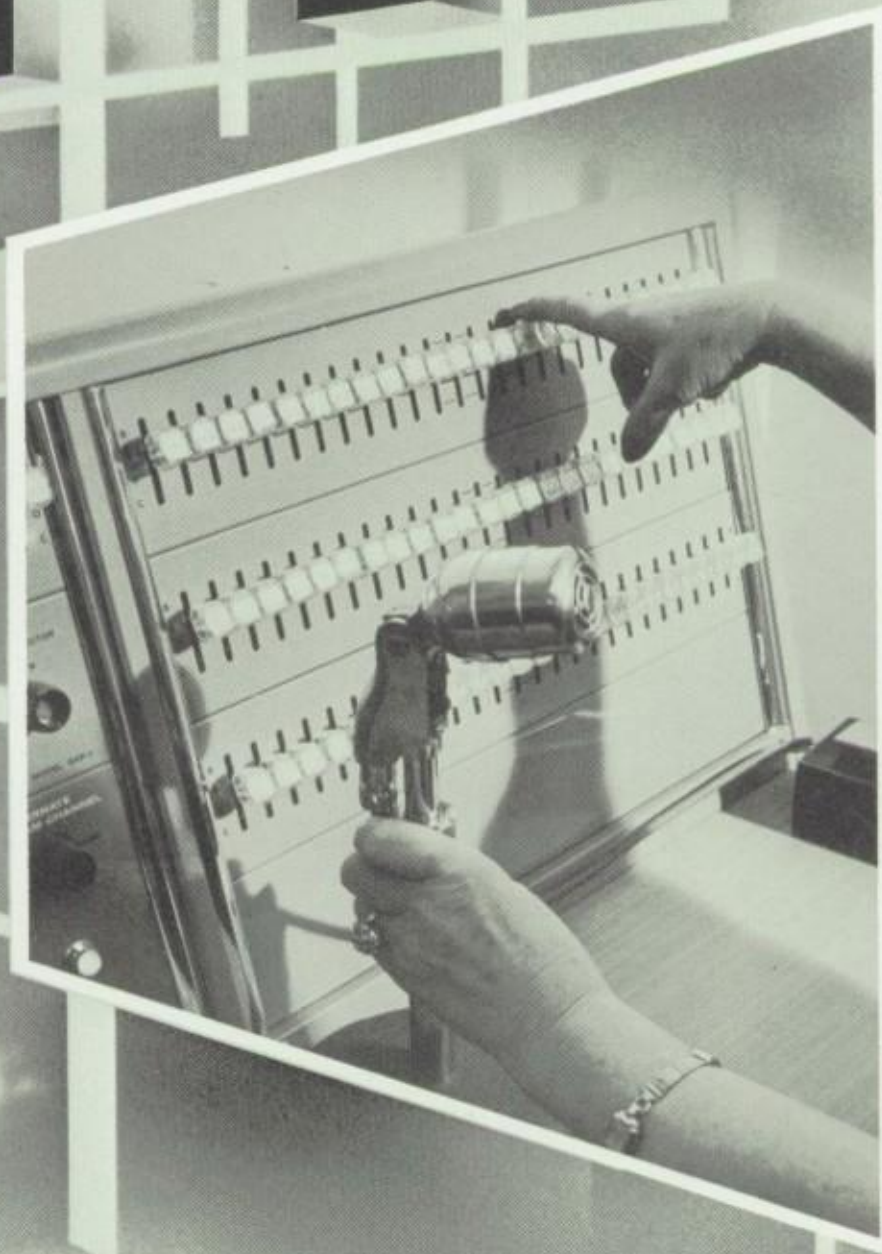

Mr. Hufford, our principal; Secretary, Mrs. Alice Shreves; and the faculty for their cooperation.

And especially to my Editor and competent, devoted staff, a tremendous gratitude.

Mrs. Shesler

ADMINISTRATION

Trustee - DONALD A. SIEWERT

Our country's future depends on each one at Cowan, so shall we all strive to keep this the greatest country in the world by attaining the best education within our power to the greatest advantage for God, country, and fellow man.

Assistant Principal - GLEN MUNRO

What is the pulse of a school? Of course, these are the academic topics that the students struggle with, but what are the other evasive things that make up the spirit of a school? Here are just a few phrases that some of you will recall - latest love affairs, a last second victory or loss, tears of graduation, tears from the paddle, windsprints on the stairs, six week grades, lunch room odors, carnival gaiety, new students, lost students - dropouts, fainting girls, ping pong games, the impossible miracle of cautious student drivers, tests, quizzes, and thrill of success! Cowan School is made of a generous mixture of the things mentioned above. It has been a pleasure to have been part of this - a typical school year.

A D M I N I S T R A T I O N

Principal - DAVID G. HUFFORD

School should provide experiences and opportunities for the students to develop the strength they will need in their roles as homemakers, citizens, workers, and consumers. We have made every attempt to do these things at Cowan this year.

Mr. Hufford's capable assistant, Mrs. Alice Shreves helps to keep CHS operating smoothly and efficiently, and always has time to extend a helping hand to students, faculty, and visitors.

Mrs. Maxine Siewert is always pleasant and cheerful as she works on her countless jobs. Among these are the handling of lunch money, book rent and attendance.

No honor conferred by the school excels that of membership in the National Honor Society. This society looks upon education as a total product measured by the four dimensions of life--Character, Scholarship, Leadership, and Service.

STUDENT COUNCIL

The purpose of the Student Council is to be a service group to act as a liaison between the school administration and the student body. This means that its members encourage co-operation and improve relationships between the student body and the faculty, work with the school administration in promoting policies which benefit the students, and encourage greater spirit and loyalty among the student body.

The Student Council is made up of students representing grades seven through twelve who have high scholastic ability (maintain a "B" or above average) and who have obtained social poise.

Sponsors - Mr. Hufford and Mrs. Rodenberger.
Members - Lee Anne Hamilton, Don Cartwright, Ruth Hamilton, Sheila Nicholson, Sharon Deavers, Chuck Keesling, Elaine Tharp, Andy Heath, Bill Siewart and Janet Jarnigan.

FIRST GRADE

The class has had forty-one, students on roll during the year. At the time the picture was taken there were thirty-six children.

We have found reading fun and are happy that we can read so many library books.

Murals have been a joy to us throughout the year.

We have had a big room this year, and have concentrated mostly on the R's. A few extracurricular things were enjoyed by the boys and girls.

We made Christmas gifts from plastic containers, Easter hats from scraps, and plates were made and flown for a short time. We colored eggs and made baskets from our milk cartons. Bunnies were made of cotton and, all in all, it has been a busy year.

Each of us will remember second grade in different ways, but for all I hope it was a year of meaningful learning experiences and fun. We all gained independence in reading, and we were challenged by the new math. Some of us experienced play acting for the first time, on stage with real costumes and a script. At Easter we painted hollow eggs and made an Easter Egg Tree. Later in the spring we had an interesting and enjoyable study of birds.

THIRD GRADE

Fourth row--Mrs. Holbrook, Brenda Jones, Jennifer Lawson, Cherlynn McKibben, Debra Lee, Terri Lilly, Steven Shelley, Joan Zuercher.

Mrs. Bowers' and her thirty-three third graders have been learning many things. We have listened to good records and have seen several educational films. Live animals have visited the room to add to our science experiences. The pupils used Bell Telephone equipment in studying a communication and telephone program.

Mrs. Haddin's third grade had many learning experiences. In math, lunch money and tickets were counted. The number line and abacus were used to illustrate regrouping and place value in addition, subtraction, multiplication and division. Educational films were shown and reports on famous people were given. Christmas candy was made and poems were written and read.

THE COWAN SCHOOL PHILOSOPHY

Our policy should be to take the child as he is when he comes to us, and develop him as much as possible toward his maximum potential. This should be done regardless of race, creed, or economic status of the family. Every child should have school opportunities suited to his needs and abilities. A staff of highly competent and well-prepared teachers, interested in understanding and serving youth, should be provided throughout the educational program.

Our teachers should be teachers of children also, instead of teachers of subject matter only. No subject should have a place in the curriculum of the school unless it can contribute to the general education of the boys and girls.

Teaching should be done in such a way as to make a difference in the lives of our boys and girls, a difference in their thinking, their acting, their attitudes, and in their appreciations. The teachers and the students should work together instead of separately. Emphasis should be placed upon the adaptation of the school to all of its individuals, rather than the individual to the school. We should strive to develop our boys and girls into human beings who are personally and socially adjusted, to assist them in acquiring the skills of democratic participation.

Our goal should be to develop a democratic attitude, a lack of snobbery. We should give to our boys and girls these basic skills, as a minimum; writing English, handling mathematics, in so far as arithmetic and elementary algebra are concerned, and the ability to read with concentration, and some degree of understanding, as well as the ability to speak and to listen.

We should stimulate the interests of the gifted boy or girl to do his best throughout his entire school life. We should get him to relate the formal study and book learning to the life problems of the day. We should teach him to settle down and do a good intelligent thinking job.

We should do our best to see to it that the children in our care are not maladjusted, that they have a chance to develop sound mental attitudes and controls.

All youth of both sexes need specific knowledge for marriage, for home management, and for bringing up children. They need instruction in the planning and buying of food, clothing, housing and household appliances. They need to learn the financial management of such problems as health, education, recreation, and the proper use of credit. Every course should contribute to the youth's civic education. Students should learn to get along with fellow workers, to accept responsibility, and to know the problems of labor and management.

Schools should provide experiences and opportunities for the students to develop the strength they will need in their roles as homemakers, citizens, workers, and consumers. We have made every attempt to do these things at Cowan this year.

David L. Hupford
